

# Lazar Osmokrovic

Junior Software Developer

## Profile

I was working as a junior software developer in IGT company. I learned basic knowledge for creating mobile applications for android and ios in Android Studio and Xcode. The programming languages I was working with are Swift, Kotlin, Java and Dart. Also, I have basic knowledge in Flutter framework.

## Education

### College of Electrical and Computer Engineering, Belgrade

[October 2016 — Present](#)

The New Computer Technology Study Program aims to equip students to use and develop technologies in the fields of programming, networking, databases and multimedia.

Final year, I have no regular commitments in college.

### High School of Electrical Engineering "Nikola Tesla", Belgrade

[September 2012 — June 2016](#)

The occupation, which lasts for four years, qualifies students to work with renewable energy sources and to use their properties to convert it into electricity.

## Relevant Skills

### Programs and programming languages

In college I had the opportunity to work in many programs and programming languages. I will single out a few and list achievements.

- SQL and MySQL databases: All of DDL and DQL, DML(insert, update, delete,) and a small part of TCL
- Java: Expressions, complex commands, methods, classes, strings
- Kotlin, Swift, Dart: Lists, basic operators, string formatting, basic string operations, conditions, loops, functions, classes and objects, dictionaries, modules and packages.
- Flutter: libraries, core, platform integration
- HTML5, CSS3, Bootstrap and WordPress: Creating websites for shops, travel agencies, blogs
- Maya: Character animation rules, mastering basic animation tools, including skeletons and deformers, as well as going through the entire process of planning and working on short animated forms.
- Adobe Photoshop: Basics of work and knowledge of work tools
- Microsoft Office - ECDL certificate.

## Details

Prote Milana Smiljanica, Belgrade,  
11030, Serbia
